**Introducing a major change!** All providers, who assist participants with medication, will be required to become an approved DDD Medication Assistant, unless they are a licensed medical professional, such as an RN or LPN. The Division has developed state standards and policy for Medication Assistance and Management to be in compliance with CMS requirements, and this system change affects ALL PROVIDERS. This Webinar session will review the components of the state standards and provide an overview of the required Medication Assistant training. We will detail the timelines to which providers must adhere.

**To Register:** Click on the link above to sign up for the session. The Webinar shows the presentation on your computer screen, but you must also call in to **877-278-8686 Access Code: 210299** in order to hear the audio. **If you do not register ahead of time, you will not be able to see the training when you log on during the training time.**

If you do not wish to access the webinar training, you may participate via conference using the same number listed above. You will also need to download the PowerPoint presentation from the Division's website (<http://www.health.wyo.gov/ddd/ddd/ddtraining.html>). The presentation will be posted to the Division's website no later than June 9.

We hope you will be able to attend one of these sessions. If you have any questions regarding the webinar, please contact Terry Walling at 307-777-6775 or by email at [terry.walling@health.wyo.gov](mailto:terry.walling@health.wyo.gov).
